

# Reduce Winter Feeding with Stockpiled Forage and Winter Pasture

Friday, August 25, 2023

Texas A&M AgriLife Research and Extension Center  
1710 N. Hwy 3053, Overton, TX 75684

Would you prefer to feed hay for 60 days? 100 days? or 150 days?  
Here's an opportunity to learn how to significantly reduce your hay feeding needs.

Nitrogen fertilizer prices have decreased from recent highs and continue to trend lower.  
Winter pasture can be a good option to greatly reduce winter feeding costs.

## Program presented by:

Drs. Vanessa Corriher-Olson and Jason Banta

## Topics include:

- Stockpiled forage: management and utilization
- Acres needed per cow for stockpiled forage and winter pasture
- Cool-season forages and variety selection
- Establishment and fertilization
- Monthly and seasonal forage production potential
- Appropriate mineral supplementation
- Estimated costs

**Register by August 15<sup>th</sup> at 1:00 PM: \$60/person**  
Register before August 23 at 1:00 PM: \$75/person

- Includes lunch and program materials

9:30 Program starts  
12:00 Lunch served  
4:30 Adjourn
